PROFESSIONAL SUMMARY

Backend Developer with hands-on experience building secure, database-driven applications using Java, Spring Boot, REST APIs, Spring Security, JPA/Hibernate, and SQL. Experienced in developing backend services with JWT authentication, role-based access control, validation, exception handling, and relational database integration. Strong foundation in object-oriented programming, data structures, and problem-solving, with 200+ DSA problems solved. Hands-on experience with Docker, Redis, Git, and API documentation tools, with a focus on building maintainable and reliable backend systems.

TECHNICAL SKILLS

Languages: Java, C++, SQL

Core Java: Java 17+, OOP, Collections, Multithreading, Exception Handling, Streams

Frameworks: Spring Boot, Spring MVC, Spring Security, Spring Data JPA, Spring AI

Database & ORM: MySQL, PostgreSQL, JDBC, Hibernate/JPA

API Development: REST APIs, JSON, API Integration, DTOs, Pagination, Postman, Swagger

Authentication & Security: Authentication & Authorization, JWT, OAuth2, Role-Based Access Control, 2FA

Build & Version Control: Maven, Gradle, Git, GitHub

Architecture: Microservices, Design Patterns, SOLID Principles, CI/CD Fundamentals

Containers & Caching: Docker, Redis

AI/ML APIs: Gemini API, Groq API, OpenAI API

Testing: JUnit, Mockito

CS Fundamentals: Data Structures & Algorithms

Frontend: React.js, JavaScript, HTML5, CSS3, Thymeleaf

SOFTWARE PROJECTS

SentinelAPI | Secure Task Management REST API
Tech Stack: Java, Spring Boot, Spring Security, JWT, Spring Data JPA, Hibernate, MySQL

- Engineered a Task Management REST API using Spring Boot with JWT authentication and Spring Security, supporting full CRUD operations, role-based access control, and ownership validation for multi-user environments.
- Established DTO-based architecture, global exception handling, and Spring Data JPA pagination to ensure secure, maintainable, and efficient data retrieval across endpoints.

NeuralKnowledge | AI-Powered PDF Q&A Application
Tech Stack: Spring Boot, Spring AI, Spring Security, JWT, Google OAuth2, Groq API, Apache Tika, Thymeleaf

- Built a full-stack Spring Boot application enabling AI-powered Q&A over PDF documents, integrating Spring AI with Groq API for response generation and Apache Tika for document parsing.
- Implemented secure authentication with Spring Security, JWT, Google OAuth2, and 2FA; deployed the application on Railway. Configured environment-based secret management and secured application credentials during deployment.

Fake News Summarizer & Detector
Tech Stack: Spring Boot, OpenAI API, Google API, REST, MySQL

- Built an AI-powered full-stack web application integrating OpenAI API for automated news summarization and fake news detection, with Google API handling real-time news extraction and user authentication.
- Crafted a responsive Thymeleaf + Bootstrap frontend with a secure RESTful backend and MySQL database persistence, enabling real-time detection results and complete history tracking per user.

PROFESSIONAL EXPERIENCE

Web Developer Intern, Gaura Softwares, Delhi, India May 2024 - Jul 2024

- Developed and delivered 5+ application components across multiple client projects, optimizing performance and improving overall efficiency by 25%.

- Diagnosed and resolved 15+ compatibility and functional issues across environments, improving system reliability and ensuring consistent behavior across platforms.

Web Developer Intern, Bhramaand-Inc, India Jun 2023 - Dec 2023

- Engineered a content management platform from the ground up, supporting 200+ submissions through structured data handling, navigation logic, and filtering functionality.
- Enhanced and refined interface components across devices, improving accessibility, usability, and overall system consistency.

EDUCATION

B.Tech, Computer Science & Engineering 2022 - 2026
Sharda University, Greater Noida, India

Class XII (CBSE) 2022
Delhi City School, Bulandshahr

Class X (CBSE) 2020
Lawrence Academy, Bulandshahr

CERTIFICATIONS

Java Backend Development - Incapp [Aug 24 – May 25]
Core Java - Oracle & Incapp [May 23 – Jul 23]
